Distributions (Class A1):		CPU									
	Mar 2017	18.45									
	Jun 2017	14.95									
	Sep 2017	16.91									
	Dec 2017	13.08									

FUND PERFORMANCE

INVESTOR PROFILE

This fund is suitable for investors with an investment time horizon of 5 years or longer who wish to have their fund managed to a specified real return target with appropriate risk controls.

APPLICATION

The Mi-Plan IP Inflation Plus 7 Fund is a risk-managed balanced portfolio comprising a range of domestic and foreign asset classes. The fund also forms part of Mi-Plan's range of risk-controlled portfolios in a time-based process designed to integrate the portfolio construction or asset allocation framework with our proprietary financial planning software called MI-PLAN.

OBJECTIVE

The portfolio will follow an aggressive investment approach with its primary objective being to obtain a return of at least CPI Plus 7% per annum over a rolling three-year period. The investment Manager will aim to achieve a return of at least CPI over rolling 12 month periods.

FUND MANAGEMENT

Tony Bell

CIO / Portfolio Manager

Vunani Fund Managers

Global financial markets are shifting gears. Forward gear shifts focus on improved economic growth, improved corporate earnings, low unemployment in developed economies and low borrowing rates in the US, Eurozone and Japan. But an equal number of reverse shifts are developing; rising inflation, monetary tightening, labour constraints (higher wages) and subtle but important shifts in the tectonic plates of politics and trade.

Within our asset allocation framework we remain overweight domestic and foreign equities, nominal bonds and cash while significantly underweight domestic inflation linkers. So far this has been the correct approach. We anticipate that we will lighten long duration nominal bonds as the "Ramaphosa rally" comes to an end and as US bonds potentially send us another signal that trouble may be brewing within US financial markets. Based on this key signal we have already raised cash in the foreign component of your portfolio where applicable.

Time will tell whether recent developments within the domestic political landscape are net positive. We remain cautious as the balance of power has yet to tilt towards the light. The lack of any meaningful follow through on the rand or nominal bond yields suggests that, while the market has re-priced the Zuma put it remains sanguine on the Ramaphosa call option.

An analysis of factors affecting the adherence to the policy objective is contained in the fund manager commentary together with performance as reported. A detailed listing of changes from the previous quarter is available on request from info@miplan.co.za or clientservices@ipmc.co.za

Collective Investment Schemes are generally medium to long term investments. The value of participatory interests or the investment may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request from the manager. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The Manager retains full legal responsibility for the Fund, regardless of Co-Naming arrangements. Transaction cutoff time is 14:30 daily. Each portfolio may be closed for new investments. Valuation time is 15:00 (17h00 at quarter end). Prices are published daily and available in newspapers countrywide, as well as on request from the Manager. IP Management Company (RF) Pty Ltd is the authorised Manager of the Scheme – contact 021 673 1340 or clientservices@ipmc.co.za. Standard Bank is the trustee / custodian – contact compliance-IP@standardbank.co.za. Additional information including application forms, the annual report of the Manager and detailed holdings of the portfolio as at the last quarter end are available, free of charge, from clientservices@ipmc.co.za. IP Management Company is a member of ASISA. A statement of changes in the composition of the portfolio during the reporting period is available on request. The performance is calculated for the portfolio. The individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. The fund is invested in portfolios of collective investment schemes that levy their own charges, and which could result in a higher fee structure for the fund.

The portfolio may include foreign investments and the following additional risks may apply: liquidity constraints when selling foreign investments and risk of non-settlement of trades; macroeconomic and political risks associated with the country in which the investment is made; risk of loss on foreign exchange transactions and investment valuation due to fluctuating exchange rates; risk of foreign tax being applicable; potential limitations on availability of market information which could affect the valuation and liquidity of an investment. All of these risks could affect the valuation of an investment in the fund.

Disclosure: MI-PLAN has a 37% ownership interest in IP Management Company (RF) (Pty) Ltd. IP Management is a registered Collective Investment Manager in terms of CISCA and performs administrative functions on co-branded MI-PLAN IP unit trusts for which it receives contracted fees. In terms of its licence, IP Management Company may not conduct any other business other than the business of running a Collective Investment scheme. Accordingly, all intermediary service and advice where applicable, is provided by MI-PLAN in terms of its licence for which remuneration is paid from the fees mandated in the supplemental deed and disclosed herein. MI-PLAN offers investors a unique liability matching offering that matches the clients portfolio to their unique needs as documented at www.miplan.co.za. The complexity and uniqueness of this process and variability of each client's needs, required that technology be used to embed MI-PLAN's intellectual property in the financial service offering. In delivering this financial service, software is provided by MI-PLAN to advisers that determines a liability matched asset allocation, constructed using MI-PLAN IP funds. The design of the MI-PLAN software is based on the premise that the 25% allocated to MI-PLAN funds that provides the client with a foundation on which to choose other funds as mapped into the MI-PLAN software. As it's important to match the choice of product with the advice benchmark included in the MI-PLAN software should less than 25% of the clients product choice be directed to funds that are not similar to the MI-PLAN suite of funds, that a risk of a disconnect exists between the benchmark created and product choice. No fee is charged for the software and no obligation is placed on the advisor to offer, continue to offer, or offer to a minimum number of clients, this financial service. There are no other conditions placed on the advisors for the continued use of such technology that may influence the objective performance of the advisor. The advisor's obligations to render unbiased, fair advice in the best interests of you, the client, remains with your advisor. Your advisors obligation is to compare this financial offering against all others and ensure it is the most appropriate for your needs.
